Leading a talented team at SageFlick, Nepal's leading theater management system.

Dedicated to innovation and excellence in delivering seamless solutions for the entertainment industry. Let's connect and discuss how we're shaping the future of theater management in Nepal.

## Education

### **BE in Computer Engineering [2013-2017]**

Kantipur Engineering College, Dhapakhel Lalitpur

## Work Experience

### **Engineering Lead - [Sageflick]**

March 2023 - Current

- Spearheaded engineering initiatives, driving innovation and excellence in web development projects.
- Engineered dynamic modules and crafted immersive User Interfaces, elevating user experiences.
- Orchestrated seamless migration of builds to production, ensuring operational efficiency.
- Architected robust database solutions and optimized system performance for multiple consumers.
- Pioneered the setup of POS systems, enhancing operational capabilities.

## **Software Engineer, Team Lead - [Braindigit ]**

Sept 2019 - Feb 2023

- Led a team in the development of dynamic modules, setting new benchmarks for excellence.
- Designed and implemented interactive graphical interfaces, enhancing user engagement.
- Managed the end-to-end development lifecycle, ensuring timely delivery of high-quality solutions.
- Implemented agile development methodologies, fostering a culture of collaboration and innovation.
- Collaborated with cross-functional teams to optimize system performance and scalability

## **Associate Software Engineer - [ Contender, Braindigit ]**

Jan 2018 - Sept 2019

- Developed dynamic and reusable web components, streamlining development processes.
- Implemented upgrades for existing systems, incorporating cutting-edge technologies.
- Conducted comprehensive testing and maintenance to ensure optimal application performance.
- Collaborated closely with team members, fostering a culture of continuous learning and improvement.
- Demonstrated expertise in database design and optimization, driving efficiency and reliability.

## **Intern [ Braindigit ]**

Sept 2017 - Jan 2018

- Gained hands-on experience in .NET Framework, SQL Server, and object-oriented programming.
- Assisted in the development of client-side scripting solutions, contributing to project success.
- Demonstrated a strong commitment to learning and professional development, laying the foundation for future success.

## **Skills**

- Proficient in software development with .NET web framework, .NET Core, and SQL Server.
- Extensive experience in agile development processes and principles.
- Strong grasp of object-oriented design principles and best practices.
- Skilled in web API development and view components on .NET Core MVC.
- Proficient in client-side scripting languages including HTML5, CSS, and jQuery.
- Knowledgeable in software development fundamentals and processes.
- Experienced in using Visual Studio, GIT, SVN, TFS, Postman, and basic knowledge of Azure.
- Excellent written and verbal communication skills, with a proven ability to communicate complex technical concepts effectively.
